

THE BIOLOGY OF REGENERATION

TUESDAY, MARCH 22, 2011

7TH ANNUAL CDB SPRING SYMPOSIUM
DEPARTMENT OF MOLECULAR AND CELL BIOLOGY
UNIVERSITY OF CALIFORNIA, BERKELEY

Katia Del Rio-Tsonis

How to regenerate a retina

Brigitte Galliot

Apoptosis or no apoptosis to launch head regeneration in Hydra

Kenneth Poss

Cardiac regenerative capacity and mechanisms in zebrafish

Peter Reddien

Genetic control of planarian regeneration

Gerold Schubiger

Regeneration and transdetermination in
Drosophila imaginal discs - a stem
cell connection?

Jonathan Slack

A new approach to inducing
limb regeneration

Deepak Srivastava

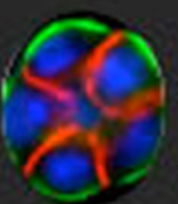

Reprogramming approaches for
cardiovascular disease

Elly Tanaka

What are the boundary conditions for
vertebrate regeneration?

9:00 AM-5:00 PM, 2050 VLSB

HHMI
