

**UC Berkeley Cell & Developmental Biology Spring Symposium**

***Autophagy in cellular homeostasis, development,  
and disease***

**Li Ka-Shing Auditorium, Saturday Mar. 21, 2015**

**Molecular mechanisms**

**Daniel Klionsky (Michigan)**

**Brenda Schulman (St Jude's)**

**Sascha Martens (Vienna)**

**Neurodegeneration**

**Richard Youle (NINDS)**

**Andrea Ballabio (Napoli)**

**Erika Holzbaur (Penn)**

**Emerging physiology**

**Emmanuelle Passegue (UCSF)**

**Craig Roy (Yale)**

**Alec Kimmelman (Harvard)**

**Organizers: Roberto Zoncu, James Hurley, and Randy Schekman**

**Supported by the Division of Cell and Developmental Biology,  
BioMarin, Genentech, Sigma, Center for Emerging and Neglected  
Diseases, and the Helen Wills Neuroscience Institute**

**Image: "Parkin-mediated mitophagy", Yvette Wong and Erika Holzbaur**
