

**Cellular and Molecular Neurobiology
Fall 2017**

MCB 160

M,W,F 10-11am

100 GPB

Instructors

Prof. Ehud Isacoff

Office: 271 LSA

Office Hours: TBA

Email: ehud@berkeley.edu

Prof. Dan Feldman

Office: 189 LSA

Office Hours: Fridays 12-1 during DF instructional weeks

Email: dfeldman@berkeley.edu

Prof. John Ngai

Office: 269 LSA

Office Hours: Mondays 11-12 & Thursdays 4-5 during JN instructional weeks

Email: jngai@berkeley.edu

GSI

Zuzanna Balewski

Holly Gildea

Christopher Hoel

Email

balewski@berkeley.edu

holly_gildea@berkeley.edu

choel@berkeley.edu

Office hours

Tuesdays 3-4 pm - 105 GPB

Wednesday 9-10 am - 105 GPB

Mondays 2-3 pm - 105 GPB

Course Description

Comprehensive introductory survey of cellular and molecular neuroscience, including cellular neurophysiology, ion channel function, synaptic function and plasticity, sensory transduction, and brain development. Analysis from the level of molecules to cells to simple circuits.

Prerequisites: Biology 1A and 1AL. Prerequisite or co-requisite: Physics 8B

Course Resources

- Required Text: Principles of Neurobiology, 1st edition by Liqun Luo (ISBN: 9780815345336)
- Recommended Text: Principles of Neural Science, 5th edition by Kandel et al Available as a free e-book, from computers on the campus network (including AirBears2): <http://neurology.mhmedical.com/book.aspx?bookID=1049>
From off-campus locations: install the Library proxy server: <http://www.lib.berkeley.edu/using-the-libraries/proxy-server>, then click on the link from the library catalog to access the e-book.
- Optional Text: Ion Channels of Excitable Membranes by Bertil Hille (ISBN: 9780878933211)

- Website/Online Resources: bCourses will be used to post all course material including handouts and lecture slides.

Policies & Grading

How to Succeed in this Course

This class covers a lot of material, and emphasizes both facts and principles. Bring a copy of the lecture slides to class with you, so you can take notes on them. Focus in class on understanding the material, rather than on rapid note-taking. Attend Faculty and GSI office hours; bring your questions and think about those from other students. If you find that you have any trouble keeping up with assignments or other aspects of the course, make sure you let your instructor know as early as possible.

Course Requirements

- Lecture and Discussion Attendance: Students are expected to attend all lectures and their assigned discussion section. Attendance in discussion section will be monitored and will count towards your grade.
- Quizzes: Quizzes will be given in discussion section periodically throughout the year (announced in advance) and will count towards your discussion section grade.
- Exams: There will be two mid-terms exams and a comprehensive final exam. Exams will take place during class time, as listed on the lecture schedule. Final exam time is also listed on the lecture schedule.

Course Policies

I. Safe, Supportive, and Inclusive Environment

- a. Whenever a faculty member, staff member, post-doc, or GSI is responsible for the supervision of a student, a personal relationship between them of a romantic or sexual nature, even if consensual, is against university policy. Any such relationship jeopardizes the integrity of the educational process.

Although faculty and staff can act as excellent resources for students, you should be aware that they are required to report any violations of this campus policy. If you wish to have a confidential discussion on matters related to this policy, you may contact the Confidential Care Advocates on campus for support related to counseling or sensitive issues. Appointments can be made by calling (510) 642-1988.

The classroom, lab, and work place should be safe and inclusive environments for everyone. The Office for the Prevention of Harassment and Discrimination (OPHD) is responsible for ensuring the University provides an environment for faculty, staff and students that is free from discrimination and harassment on the basis of categories including race, color, national origin, age, sex, gender, gender identity, and sexual orientation. Questions or concerns? Call (510) 643-7985, email ask_ophd@berkeley.edu, or go to <http://survivorsupport.berkeley.edu/>.

II. DSP Students

If you need disability-related accommodations in this class, if you have emergency

medical information you wish to share with us, or if you need special arrangements in case the building must be evacuated, please inform us immediately. Please see the instructor privately after class or send an email within the first week of class.

Students who need accommodations, should request them from the Disabled Students' Program, 260 César Chávez Center, 642-0518 (voice), dsp@berkeley.edu. DSP is the campus office responsible for verifying disability-related need for academic accommodations, assessing that need, and for planning accommodations in cooperation with students and instructors as needed and consistent with course requirements.

III. Cheating

Cheating will not be tolerated. UC Berkeley's cheating policy (<http://bulletin.berkeley.edu/academic-policies/#studentconductappealstext>) will be followed.

III. Policy for missing an exam

There are no make-up exams or quizzes. The only excuse for missing an exam or quiz is a documented medical reason or family emergency. In this case, you must notify the instructors within one week of the exam date and provide documentation. In excused cases, the scores from the other two exams will be weighted and averaged to determine the final grade.

IV. Letters of Recommendation

Any of the three instructors may be approached for a letter of recommendation. If you plan on asking for a letter it is recommended that you regularly attend lectures, office hours and discussion section so that we can provide the most informative evaluation.

V. Grading Policy

Points	Description
40	Discussion section grade: determined by quiz scores and participation score
100	Mid-term 1
100	Mid-term 2
160	Final exam
400	Total Points Possible

Grade Determination

Grades will be determined by calculating the percentage of points earned out of 400. Letter grades will be assigned using the standard grading scale as a guideline:

A	100-90%	D	69-60%
B	89-80%	F	59-00%
C	79-70%		

Re-grade Policy

If you would like a regrade for a question(s) on a mid-term exam, a one page hard copy written request explaining why you believe you deserve credit is due to the instructor or GSI **seven days** after the exams are handed back. The instructor will examine the request and the entire exam is subject to regrading. Only exams completed in pen are eligible for regrades.

Course Schedule

Prof	Class Date	Lecture #	Lecture Topic	Reading (Luo)	Reading (Kandel)	Optional reading (Hille)
EI	W Aug. 23	1	Introduction to the nervous system	Chapter 1	Chapters 1, 3 & 4	
			MEMBRANE BIOPHYSICS			
EI	F Aug. 25	2	Plasma membrane, channels, pumps	Chapter 2.1-2.4	Chapter 5	Chapter 1
EI	M Aug. 28	3	Passive electrical properties & equivalent circuits	Chapter 2.5-2.8	Chapter 6, Appendix A	Chapter 2
EI	W Aug. 30	4	Selective permeability and membrane potential	Chapter 2.5-2.8	Chapter 6, Appendix A	Chapters 10, 11 & 14
EI	F Sep. 1	5	The action potential	Chapter 2.9-2.11	Chapter 2	Chapters 10, 11 & 14
	<i>M Sep. 4</i>	<i>Labor Day</i>				
EI	W Sep. 6	6	Voltage-gated ion channels I	Chapter 2.9-2.16	Chapter 7	Chapters 3, 4 & 13
EI	F Sep. 8	7	Voltage-gated ion channels II	Chapter 2.9-2.16	Chapter 7	Chapters 5 & 19
EI	M Sep. 11	8	Action potential propagation	Chapter 2.9-2.16	Chapter 7	Chapter 2
EI	W Sep. 13	9	Spontaneous activity and pacemaking	<i>Handout</i>		
			SYNAPTIC TRANSMISSION (PRE-SYAPTIC FUNCTION)			
EI	F Sep. 15	10	Synaptic transmission (presynaptic function) I	Chapter 3.1-3.11	Chapters 8 & 12	
EI	M Sep. 18	11	Synaptic transmission (presynaptic function) II	Chapter 3.1-3.11	Chapters 8 & 12	
EI	W Sep. 20	12	Short-term plasticity	Chapter 3.1-3.11	Chapters 8 & 12	
DF	F Sep. 22	13	Optical methods in neurobiology	Chapter 13.22-13.26 + <i>Handout</i>		
EI	M Sep. 25		MIDTERM 1			
			SYNAPTIC TRANSMISSION (POST-SYAPTIC FUNCTION)			
DF	W Sep. 27	14	Neurotransmitters.	Chapter 3.11	Chapter 13	
DF	F Sep. 29	15	Ionotropic receptors	Chapter 3.12-3.17	Chapter 10	
DF	M Oct. 2	16	Synaptic excitation and inhibition	Chapter 3.24-3.25,	Chapter 10	

				10.11		
MF	W Oct. 4	17	Metabotropic receptors and G protein signaling	Chapter 3.18-3.22	Chapter 11	
DF	F Oct. 6	18	Pyramidal cells. Dendritic spines. Synaptic integration.	Chapter 3.16, 3.24-3.25		
			PLASTICITY AND LEARNING			
DF	M Oct. 9	19	Cellular basis of learning and memory	Chapter 10.2-10.3	Chapter 66, 67	
DF	W Oct. 11	20	Molecular mechanisms of long-term potentiation	Chapter 10.4-10.8	Chapter 66, 67	
DF	F Oct. 13	21	Signaling from the synapse to nucleus	Chapter 3.23	Chapter 66, 67	
DF	M Oct. 16	22	Long-term depression	Chapter 10.9-10.10, 10.12	Chapter 66, 67	
EI	W Oct. 18	23	Structural plasticity	Chapter 10.13	Chapter 66, 67	
DF	F Oct. 20	24	Homeostatic plasticity		Chapter 66, 67	
DF	M Oct. 23	25	Interneurons. E-I balance. Disorders of synaptic function.	Chapter 3.25; 11.24-11.27	Chapter 50, 64	
DF	W Oct. 25		MIDTERM 2			
			SENSORY TRANSDUCTION			
JN	F Oct. 27	26	Phototransduction	Chapter 4		
JN	M Oct. 30	27	Olfactory and taste transduction	Chapter 6		
JN	W Nov. 1	28	Hair cells and auditory transduction	Chapter 6		
JN	F Nov. 3	29	Somatosensation and pain	Chapter 6		
			NEURAL DEVELOPMENT			
JN	M Nov. 6	30	Early neural induction	Chapter 7	Chapter 52	
JN	W Nov. 8	31	Specification of regional identity	Chapter 7	Chapter 52	
	<i>F Nov. 10</i>	<i>Veteran's Day</i>				
JN	M Nov. 13	32	Specification of cell fates I	Chapter 7	Chapter 53	
JN	W Nov. 15	33	Specification of cell fates II	Chapter 7	Chapter 53	
JN	F Nov. 17	34	Trophic factors and cell death	Chapter 7	Chapter 53	
JN	M Nov. 20	35	Axon guidance I	Chapter 7	Chapter 54	
	<i>W Nov. 22</i>	<i>Thanksgiving</i>				
	<i>F Nov. 24</i>	<i>Thanksgiving</i>				
JN	M Nov. 27	36	Axon guidance II	Chapter 7	Chapter 55	
JN	W Nov. 9	37	Synapse formation	Chapter 7	Chapter 56	
JN	F Dec. 1	38	Activity-dependent synaptic refinement during development	Chapter 7	Chapter 56	
	Dec. 4-8	<i>RRR week</i>				
	Dec. 12	Tues	FINAL EXAM 3-6 PM
