

IAP
Industrial Affiliates Program

DEPARTMENT OF MOLECULAR AND CELL BIOLOGY, UNIVERSITY OF CALIFORNIA, BERKELEY

The Department of Molecular & Cell Biology's Industrial Affiliates Program (IAP)

builds strong alliances with innovative companies. We offer our partners unique opportunities to recruit outstanding students and postdocs from our top-ranked department, exposure to cutting edge research, and rewarding scientific exchange with our faculty.

Engage with an outstanding community. UC Berkeley's Department of Molecular and Cell Biology (MCB) is renowned for its superb caliber of research and exemplary faculty, postdocs and students. From pioneering immunotherapies to the editing of genomes, MCB is generating some of the world's most innovative breakthroughs and the next generation of scientific leaders.

Network with our world-class department of 100 faculty, 250 postdocs, 250 graduate students, 1,400 undergraduates and over 16,000 alumni. Expand your outreach through our program's collaborators across campus in departments like Bioengineering, Biophysics, Biostatistics, Computational Biology, Translational Medicine and more.

Recruit entrepreneurially-minded students and postdocs trained to pursue bold new ideas that transform outcomes for our health, our environment, and our economy.

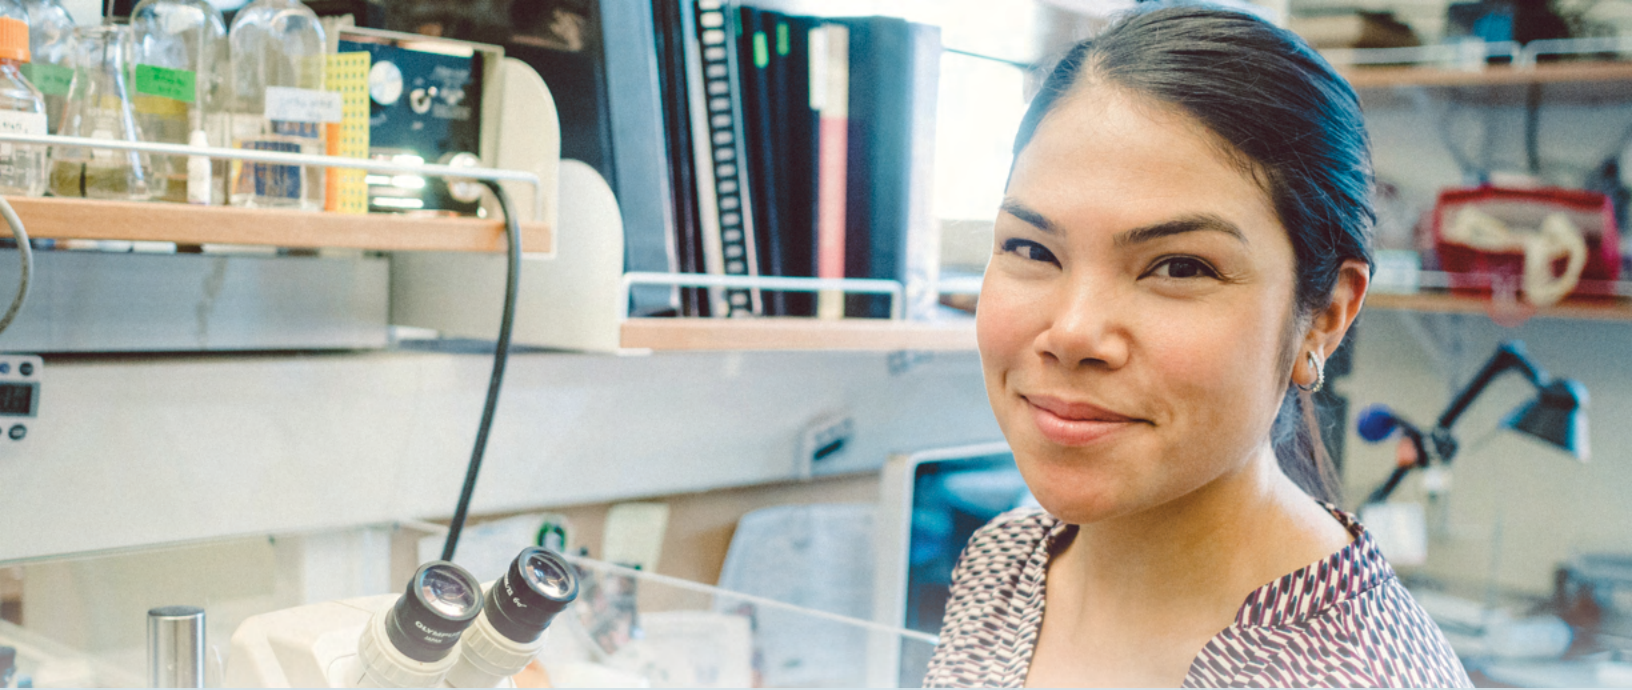

Discover the breadth of our department's groundbreaking research and develop potential research collaborations with our faculty specializing in a broad range of disciplines:

- Biochemistry
- Bioinformatics
- Biophysics
- Cell Biology
- Developmental Biology
- Genetics
- Genomics
- Immunology
- Microbiology
- Molecular Biology
- Neurobiology
- Pathogenesis
- Structural Biology
- Tumor Biology

Industrial Affiliates Program Benefits

Invest in a strong partnership with our department by becoming an IAP member through one of our valuable sponsorship opportunities.

Recruitment Sponsorship: \$10,000 gift

Recruit students and postdocs from a top-ranked department

- CV/resume bank of undergraduates, graduate students and postdocs
- Participate in two recruiting events annually with bioscience departments across campus (MCB, Bioengineering, Biostatistics, Biophysics, Computational Biology, Translational Medicine, & more)
- Job, internship and event announcements sent to students, postdocs, and alumni
- Listed sponsor and guest at departmental research seminar
- Assistance to identify and match potential summer interns

Engagement Sponsorship: \$25,000 gift

Recruitment sponsorship benefits (listed above) plus exposure to cutting edge research

- Customized visit day to tour your company's choice of faculty labs, learn about the innovative research, and develop collaborations through one-on-one meetings with faculty, postdocs and students in those labs
- Attend departmental research seminars to hear visiting scientists from around the world discuss their research
- Collaborations, visits, and meetings with faculty/students facilitated by the department
- Recruiting event for your company with targeted outreach

Fellowship Sponsorship: \$65,000 gift

Honorific naming of MCB doctoral student for one year

- Membership in Industrial Affiliates Program and all benefits of Recruitment and Engagement Sponsorships included
- Recognition through honorific naming of one MCB doctoral student for one year
- Stewardship report from student and Department Chair detailing the work completed by fellowship recipient during the past year
- Opportunity to meet with student and learn more about their lab and work
- Public recognition of your company as a Fellowship Donor on our website and at events
